
heparin 100 unit/mL infusion rate chart

(100 units/mL = 25,000 units heparin in D5W 250 mL)

Dose (units/hour)	Rate (mL/hour)
500	5
600	6
700	7
800	8
900	9
1000	10
1100	11
1200	12
1300	13
1400	14
1500	15
1600	16
1700	17
1800	18
1900	19
2000	20

Flow rate not listed above may be calculated using the following equation:

$$\text{mL/hour} = \frac{\text{dose (units/hour)}}{\text{concentration of infusion solution (units/mL)}}$$
